ENGINEER'S REPORT

INTRODUCTION

Schedio Group LLC ("Schedio Group") and Brighton Ridge Metropolitan District No. 1 ("District") entered into an Independent Contractor Agreement for Cost Verification Services ("Agreement") on December 9, 2021. This Engineer's Report and Verification of Costs Associated with Public Improvements ("Report") is the 1st deliverable associated with the Agreement, more specifically Task 1 – Independent Professional Engineer's Review of Costs Incurred and Verification of Costs Associated with the Design and Construction of Public Improvements.

Schedio Group has reviewed the Service Plan for Brighton Ridge Metropolitan District Nos. 1 & 2, in the City of Brighton, Colorado, prepared by White Bear Ankele Tanaka & Waldron, approved on September 7, 2021. Per the Service Plan, the Service Area consists of approximately 83.145 acres of mixed-use commercial and multi-family housing land, some of which will be affordable housing. The residential population of the District at build-out is estimated to be approximately 1,660 people. The District shall have authority to provide for the planning, design, acquisition, construction, installation, relocation, redevelopment, maintenance, and financing of Public Improvements. The estimated costs of the Public Improvements were based on a preliminary engineering survey and estimates and is approximately Seventeen Million Four Hundred Thirty-Five Thousand Four Hundred Dollars (\$17,435,400).

Schedio Group has also reviewed the *Public Improvements Acquisition and Reimbursement Agreement* ("PIARA"), by and between Brighton Ridge Metropolitan District No. 1 and Walk Off LLC, dated December 9, 2021. Per the PIARA:

...WHEREAS, the company has incurred or intends to incur costs related to the financing, construction, and installation of Public Improvements that may be lawfully funded by the District under the Special District Act and the Service Plan, including without limitation: (a) the costs of labor and materials, furnishings and equipment; (b) the costs of insurance premiums, indemnity and fidelity bonds or other municipal or governmental charges lawfully levied or assessed; (c) the costs of surveys, appraisals, plans, designs, specifications, and estimates; (d) the costs, fees, and expenses of engineers, architects, construction management, financial consultants, accountants, legal advisors, or other agents or employees; (e) the costs of demolition, removal and relocation; (f) the costs of organizing the District; and (g) all other lawful costs as determined by the Board (the "District Eligible Costs")...

Section 5(b) The District's engineer shall review the invoices and other material presented to substantiate the District Eligible Costs and shall issue a certification in form and substance reasonably acceptable to the District declaring the total amount of District Eligible Costs associated with the Public Improvements proposed for acquisition and/or reimbursement, and that such costs are reasonable and appropriate for the type of Public Improvement being constructed.

DETERMINATION OF PUBLIC PRORATION PERCENTAGE

Figure 2 – Determination of Public Proration Percentage below summarizes the public and private areas associated with the Project. The ratio of Total Public Area to Total Area yields a Public Proration Percentage that can be applied to select costs with both public and private components. Areas were taken directly from or derived from the Subdivision Plan of Brighton Ridge as no plat maps were available at this time. The Public Proration Percentage was calculated and applied as deemed appropriate by Schedio Group. See Exhibit A – Summary of Costs Reviewed for application of the Public Proration Percentage.

ENGINEER'S VERIFICATION

Timothy A. McCarthy, P.E. / Schedio Group, LLC (the Independent Consulting Engineer) states as follows:

This Engineer's Verification is associated with the attached Engineer's Report dated April 14, 2022.

The Independent Consulting Engineer is an engineer duly qualified and licensed in the State of Colorado with experience in the design, construction and Verification of Public Improvements of similar type and function as those described in the attached Engineer's Report.

The Independent Consulting Engineer has reviewed applicable construction or legal documents related to the Public Improvements under consideration to state the conclusions set forth in this Engineer's Verification.

The Independent Consulting Engineer did not perform a site visit as no hard costs were submitted for review.

The Independent Consulting Engineer finds and determines that soft and indirect costs associated with Organization of the District from July 10, 2019 (Date of EBI Consulting Invoice No. SIN102796) through September 18, 2021 (Date of Redland Invoice No. 10019) are reasonably valued at \$477,045.57.

In the opinion of the Independent Consulting Engineer, the above stated value for soft and indirect costs associated with the design of the Public Improvements is reasonable and consistent with costs of similar improvements constructed for similar purposes during the same timeframe and similar locales and is eligible for payment from Brighton Ridge Metropolitan District No. 1 to Walk Off LLC.

Accountant's Cost Certification

May 29, 2022

Board of Directors Brighton Ridge Metro District No. 1 Brighton, Colorado

Re: Accountant's Cost Certification No. 1

This report summarizes the results of supplementary procedures we performed related to the costs of public infrastructure constructed by Westside Development (the "Developer") within the boundaries of Brighton Ridge Metro District No. 1 (the "District"), which public infrastructure will be acquired and reimbursed by the District pursuant to the Public Improvements Acquisition and Reimbursement Agreement (the "PIARA") entered into by District No. 1 and the Developer.

We received Engineer's Report and Verification of Costs No. 1 dated April 14, 2022 containing an opinion that the public infrastructure and organizational costs to be acquired by District No. 1 totaling \$477,045.57 is fit for the purpose intended by the PIARA, and at the time of this report, these costs have been verified as reimbursable to the Developer as soon as funds are available. We did not review the contracts and did not evaluate quantity and quality measurements of the public improvements, which procedures are covered by the Engineer's Certification.

The procedures we followed include reading the documentation submitted by the Developer to support the assertion that the costs of public improvements were invoiced to and were paid by the Developer pursuant to the PIARA. The documentation we received include copies of contractors' invoices and pay applications along with proofs of payment. The invoices and pay applications for this certification total \$477,045.57.

We were not engaged to, and did not, conduct an examination in accordance with generally accepted auditing standards in the United States of America, the objective of which would be the expression of an opinion on the financial statements of the Districts. Accordingly, we do not express such an opinion. We performed our engagement as a consulting service under the American Institute of Certified Public Accountants' Statement of Standards for Consulting Services. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are not independent with respect to the District.
